April Marks Twelfth Consecutive Month of Job Growth in Maryland

State Gains 3,800 Jobs, Unemployment Rate Remains at 6.2%

The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland gained 3,800 jobs and the unemployment rate remained at 6.2% in April. This is the twelfth consecutive month of job growth in Maryland. Since the beginning of 2021, Maryland has gained a total of 27,700 jobs.

The Leisure and Hospitality sector experienced the most growth with an increase of 2,400 jobs. The Professional and Business Services sector, a pillar of the state's economy employing more than 450,000 individuals, has made a full recovery as of April. This sector now employs more workers than before the pandemic.

Other sectors that experienced growth include: Professional and Business Services (1,400); Manufacturing (1,100); Education and Health Services (100); Trade, Transportation, and Utilities (100); and Other Services (100).

Sectors that experienced declines include Mining, Logging, and Construction (1,700) and Financial Activities (200).

1,500 New Jobs Coming to Maryland as Australia's Ellume To Open First U.S. Operation In Frederick County

According to WJZ CBS Baltimore, Governor Larry Hogan announced that Ellume, an Australia-based biotech diagnostic company, will establish its first U.S.-based manufacturing operation in Frederick County. Ellume, based in East Brisbane in Queensland, said this operation will create more than 1,500 new jobs for Marylanders by the end of 2022.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
