Press Release

Since January, Maryland Has Gained 47,900 Jobs

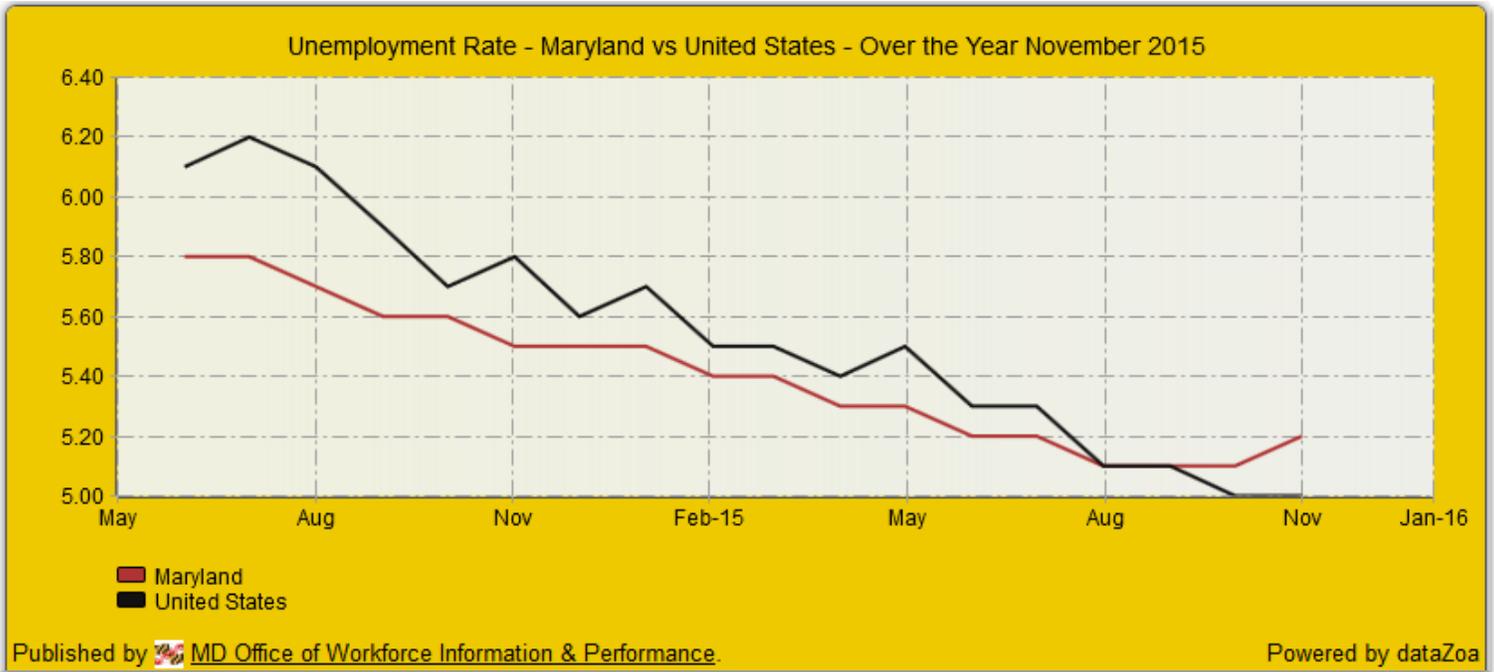

Maryland adds 3,600 jobs in November

BALTIMORE, MD (December 18, 2015) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data earlier today. According to the preliminary survey data, Maryland added 3,600 jobs. Maryland's preliminary jobs estimate for October was revised upward by BLS from a gain of from a gain of 10,800 to a gain of 11,900 jobs. From November 2014 to November 2015, the private sector has added 46,100 jobs. Maryland's November preliminary unemployment rate increased to 5.2 percent from the October revised rate of 5 percent.

"November's jobs growth again shows that more Maryland businesses are embracing the Hogan Administration's economic policies and recognize that Maryland is 'Open for Business'. Maryland's civilian labor force grew by nearly 9,500, suggesting that at least some previously discouraged workers who had given up their job search have gained confidence in Maryland's economy and started looking for work again. That's good news," said the Secretary of the Maryland Department of Labor, Licensing and Regulation Kelly M. Schulz.

According to data released today, the Mining, Logging, and Construction sector added 300 jobs. The Manufacturing sector added 1,200 jobs. (The Durable Goods subsector gained 300 jobs and the Non-Durable Goods subsector added 900 jobs.) Job gains in Non-Durable Goods Manufacturing were from expansions by firms in both food and chemical manufacturing. The Trade, Transportation, and Utilities sector gained 1,900 jobs. (The Wholesale Trade subsector added 700 jobs, the Retail Trade subsector decreased by 700 jobs and the Transportation, Warehousing, and Utilities subsector added 1,900 jobs.) The Professional and Business Services sector added 900 jobs. (Firms in the Scientific Research and Development Services subsector providing the most jobs growth in the sector, adding 1,100 jobs. The Management of Companies and Enterprises subsector decreased by 100 and the Administrative and Support and Waste Management and Remediation Services decreased by 100 jobs.)

Business News

Maryland businesses are finishing their strongest year in 8 years

According to the Baltimore Business Journal, Maryland's business activity softened a bit at the end of 2015, but it's still been a very good 12 months. In fact, 2015 was the strongest overall year in the eight-year history of the business survey from the Federal Reserve Bank of Richmond. The state's businesses reported good overall conditions along with generally strong sales throughout 2015, according to the Maryland Survey of Business Activity, a monthly survey of companies the Fed said.

Hospitals to create up to 375 jobs for disadvantaged city residents

According to The Baltimore Sun, Baltimore residents living in struggling neighborhoods hard hit by riots last April will be able to apply for 375 new jobs at area hospitals thanks to an initiative approved by state hospital rate regulators. Administrators at John Hopkins Hospital had called for new jobs in an effort to counter the despair they witnessed in the unrest last spring.

Port of Baltimore announces new 30-year contract with top shipper of autos

According to the Baltimore Sun, The port of Baltimore's top customer for automobiles and other wheeled cargo such as farm and construction equipment has committed to another three decades at the port, Gov. Larry Hogan announced Thursday. The contract between global shipping giant Wallenius Wilhelmsen Logistics and the Maryland Port Administration guarantees the shipper will serve the port through 2045.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
