Maryland Adds 9,800 Jobs, Unemployment Rate Remains at 3.6%

Over 140,000 New Jobs and 6,500 New Business Establishments Gained Since 2015

BALTIMORE (December 20, 2019) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland added 9,800 jobs in November. During the last four months, Maryland has gained 32,000 jobs, which is the strongest stretch in employment growth since 2010. The unemployment rate remained the same at 3.6%, the lowest since March 2008.

"Our state has gone from losing 100,000 jobs to gaining more than 140,000 jobs, more businesses are open and more people are working than ever before in Maryland history, and we have had one of the biggest economic turnarounds in America," said Governor Larry Hogan. "When I took office, we pledged to make Maryland more business friendly, help our private sector grow, create more jobs, and turn our economy around, and we have been doing exactly what we said we would do."

Last month, the Professional and Business Services sector experienced the most growth with an increase of 4,700 jobs from the Professional, Scientific, and Technical Services (3,900), Administrative and Support and Waste Management and Remediation Services (700), and Management of Companies and Enterprises (100) subsectors.

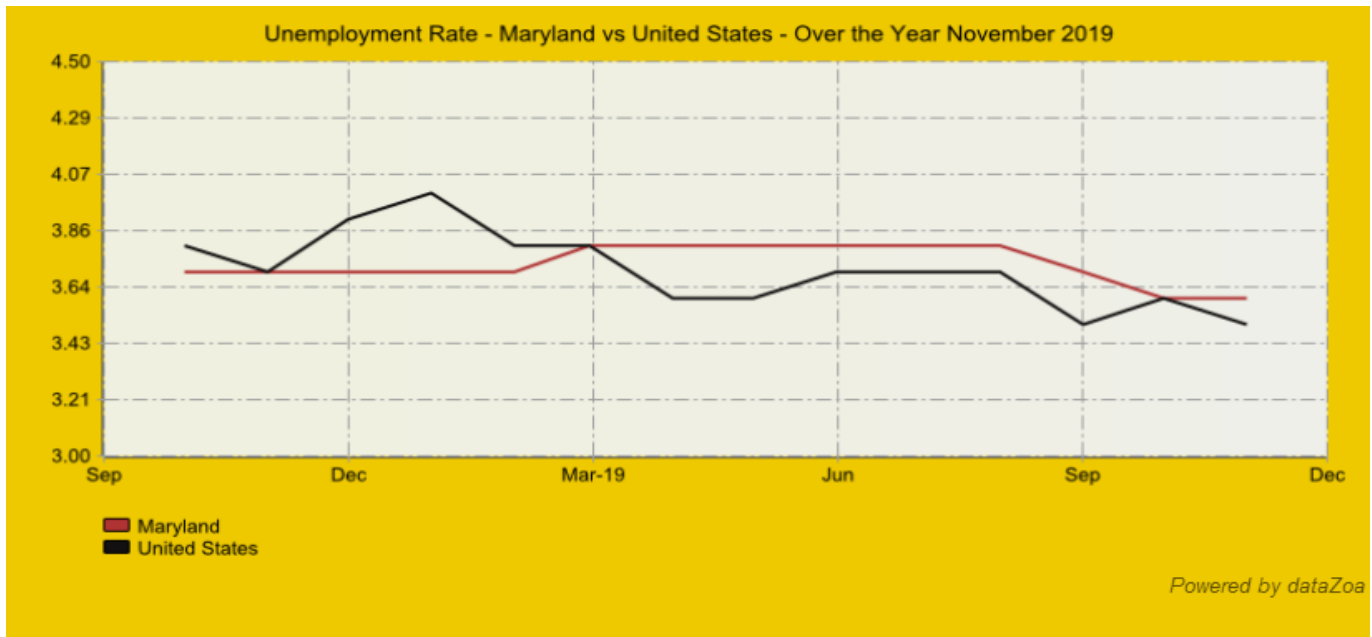

"Thanks to the Hogan administration's dedication to putting more Marylanders back to work, the state's unemployment rate has decreased from 5.4% in 2015 to 3.6% in 2019," said Maryland Department of Labor Secretary Tiffany Robinson. "Employers are benefiting from the lowest unemployment insurance tax rate possible because of our strong economy, allowing them to create new jobs and opportunities for Maryland's workforce."

The Leisure and Hospitality sector increased by 4,200 jobs from the Accommodation and Food Services (2,900) and Arts, Entertainment, and Recreation (1,300) subsectors. Other sectors that experienced growth include: Education and Health Services (900); Trade, Transportation, and Utilities (600); and Mining, Logging, and Construction sector (400).

The Other Services sector decreased by 900 jobs. Other sectors that experienced a decline include: Financial Activities (400), Manufacturing (200) and Information (100).

These Baltimore Development Projects are Poised to Get Moving in 2020

According to the Baltimore Business Journal, the Penn Station redevelopment - long on talk and short on action - is finally moving forward. A \$90 million commitment from Amtrak has been hailed as the catalyst for the project's kickoff this year. Included in the upgrades are a new lobby with better restaurants and retail and a new train platform and tracks for a high-speed line.

UK's Largest Wind Energy Trainer to Open Salisbury Hub, Hire Trainers

According to Delmarva Now, Advanced Industrial Solutions, the United Kingdom's largest provider of offshore wind industry training, will open a Salisbury facility early this year. The new training hub, created in partnership with Salisbury-based welding company ARCON, will begin hiring instructors in February or March, said ARCON President and CEO Katarina Ennerfelt.

San Francisco 'Virtual' Law Firm Opens Office in Baltimore

According to the Baltimore Business Journal, a former Pessin Katz attorney has launched the Baltimore office for Rimôn P.C., a growing firm that is looking to disrupt the model for how law firms operate.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
