Maryland Adds 10,700 Jobs, Unemployment Rate Falls to 3.6%

Lowest Unemployment Rate in Over 11 Years

BALTIMORE (November 19, 2019) – The U.S. Department of Labor’s Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland added 10,700 jobs in October. During the last three months, 27,400 jobs have been gained, which is the largest three-month gain since 2010. Maryland’s unemployment rate has decreased to 3.6%, which is the lowest unemployment rate in over 11 years.

“Just over five years ago, our administration pledged to put more people back to work, grow the private sector, and turn the state’s struggling economy around,” said Governor Larry Hogan. “With the largest three-month job gain since 2010 and lowest unemployment rate in over a decade, I am proud to say that we have spurred an incredible economic resurgence in Maryland that has brought real and lasting change to our great state.”

Last month, the Professional and Business Services sector experienced the most growth with an increase of 7,200 jobs from the Administrative and Support and Waste Management and Remediation Services (5,700) and Professional, Scientific, and Technical Services (1,600) subsectors. The Trade, Transportation, and Utilities sector increased by 5,800 jobs from the Retail Trade (2,200), Wholesale Trade (1,900), and Transportation, Warehousing, and Utilities (1,700) subsectors.

“With Maryland’s low unemployment rate, businesses are looking for new ways to up-skill their existing employees to meet the needs of our state’s strong economy,” said Labor Secretary Tiffany Robinson. “Dedicated workforce professionals at our department’s American Job Centers are readily available throughout the state to help employees learn new skills, obtain credentials, and maximize their potential.”

The Mining, Logging, and Construction sector increased by 1,600 jobs from the Construction subsector. Other sectors that experienced growth include: Other Services (500); Financial Activities (200); and Leisure and Hospitality (200).

The Education and Health Services sector decreased by 6,000 jobs from the Health Care and Social Assistance (3,500) and Educational Services (2,500) subsectors. The Information sector decreased by 100 jobs.

Business News

Courtyard, Delta Hotels Open in Baltimore

According to the Baltimore Business Journal, Two more hotels have joined Baltimore's growing hospitality scene. The Courtyard by Marriott Baltimore Downtown/McHenry Row recently made its debut in South Baltimore, and the Delta Hotels Baltimore North announced its grand opening in Roland Park. The Courtyard is the latest addition to McHenry Row, a retail and residential center off Fort Avenue.

Horseshoe Casino to Open Gaming Terrace, Caesars Rewards Center

According to the Baltimore Business Journal, Horseshoe Casino Baltimore is close to opening its two new visitor experiences, one of which will create 100 new jobs at the entertainment venue. A 10,500-square-foot outdoor gaming terrace will open Dec. 5 with new staff to oversee the bar area that will hold more than 150 new slot machines, about 20 table games and more.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
