Press Release

Maryland Adds 28,700 Jobs Since January

Compared with September 2014, Maryland jobs are up by 44,700

BALTIMORE, MD (October 20, 2015) – The U.S. Department of Labor’s Bureau of Labor Statistics (BLS) released state jobs and unemployment data earlier today. Compared with September 2014, Maryland jobs are up by 44,700. Maryland has added 28,700 total jobs since January 2015; our private sector gained 22,000 jobs. The September preliminary unemployment rate remained steady at 5.1 percent, (August revised).

According to the survey data, Maryland’s preliminary jobs estimate for August remained unchanged with revision reflecting a gain of 2,700 jobs. Maryland’s job totals decreased by 4,000 in September. Public sector jobs increased by 2,200 and the private sector jobs declined by 6,200 jobs over-the-month.

“Economic development and jobs are a priority for Governor Hogan's Administration as we work to make it easier for families and small businesses to stay in Maryland,” said Maryland Labor Secretary Kelly M. Schulz. “The Maryland Department of Labor supports local employers and will continue to foster job creation and invest in skills development to prepare Marylanders for new opportunities.”

According to data released today, the Leisure and Hospitality sector led private sector growth by adding 2,300 jobs. The Accommodation and Food Services subsector added 2,800 jobs. The Mining, Logging and Construction sector added 1,000 jobs in September.

Under Armour reports first \$1 billion sales quarter in company history

According to the Baltimore Sun, Under Armour's quarterly sales topped \$1 billion for the first time, the company reported Thursday, as a spike in footwear sales helped the brand beat sales and profit expectations and continue a streak of revenue jumps of at least 20 percent. The Baltimore-based sports and apparel maker attributed strength in the third quarter to apparel and athletic footwear innovations, the star-power of athletes, and a brand-elevating global marketing campaign, "Rule Yourself."

Amazon hiring more than Penney's, Walmart combined

According to CNBC, Amazon said that it will add 25 percent more seasonal workers this year, outpacing many of its bricks-and-mortar competitors who plan to keep hiring flat. Amazon will add 100,000 seasonal jobs in its domestic fulfillment and sorting centers this holiday. In addition, the company has hired more than 25,000 full-time workers.

Retail hiring jobs shift to warehouses, back offices during holiday season

According to the Baltimore Sun, besides the extra cashiers and stockers, Wal-Mart is hiring for the holidays, the nation's largest retailer has a new seasonal job: manager of store pickups. For the first time, the giant chain will hire managers who will ensure that all runs smoothly for shoppers retrieving online orders in stores. The new jobs coming to about 3,500 Wal-Marts are part of a shift in retail hiring this season that reflects increasing online shopping by consumers.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
