Press Release

Maryland Adds 3,400 Jobs in September

BALTIMORE, MD (October 21, 2016) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data earlier today. According to the preliminary survey data, Maryland added 3,400 jobs over-the-month. Maryland has added 46,200 jobs since September of 2015.

Maryland's preliminary September unemployment rate dropped to 4.2 percent.

"Along with this month's jobs growth, Maryland's unemployment rate improved to 4.2 percent in September. By continuing to cultivate a thriving workforce, prepared with the skills needed by today's employers, the Maryland Department of Labor is helping to make our economy stronger and providing a better quality of life for Marylanders," said Maryland Labor Secretary Kelly M. Schulz. "Our industry-driven workforce programs, including EARN and Maryland Business Works, are significant factors in changing Maryland for the better."

According to the data released today, the Financial Activities Supersector added 1,500 jobs. (The Finance and Insurance Sector added 1,100 and the Real Estate and Rental and Leasing Sector added 400 jobs. The Professional and Business Services Supersector gained 700 jobs. (The Professional, Scientific, and Technical Services Sector added 200 and the Management of Companies and Enterprises Sector added 500 jobs.)

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
