Maryland Adds 10,100 Jobs, Posting Largest Gains Since May 2015

Unemployment Rate Falls to 3.7%, Matching Lowest Level In The Last Decade

BALTIMORE (October 18, 2019) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland added 10,100 jobs in September, which is the largest single month gain since May 2015. Maryland's unemployment rate has decreased to 3.7%, matching the lowest level of unemployment that Maryland has experienced in the past decade.

"Our administration has changed the mission of state government to be unabashedly pro-jobs and pro-business and as a result, more businesses are open and more people are working than ever before in the history of our state," said Governor Larry Hogan. "We have experienced one of the biggest economic turnarounds in America, and today that incredible momentum continues with the largest jobs gains in four years and unemployment that matches a ten-year low. Maryland truly is open for business."

Last month, the Education and Health Services sector experienced the most growth with an increase of 4,400 jobs from the Health Care and Social Assistance (4,000) and Educational Services (400) subsectors. The Leisure and Hospitality sector increased by 1,800 jobs from the Accommodation and Food Services (1,600) and Arts, Entertainment, and Recreation (200) subsectors.

"As Maryland's economy continues to experience tremendous growth, businesses are strategically investing in their talent pipeline to meet industry demands and ensure long-term success," said Maryland Department of Labor Secretary Tiffany Robinson. "Through our department's many innovative training, education, and support services, we're helping workers gain new skills and credentials while giving Maryland's employers the well-trained workforce they need to prosper."

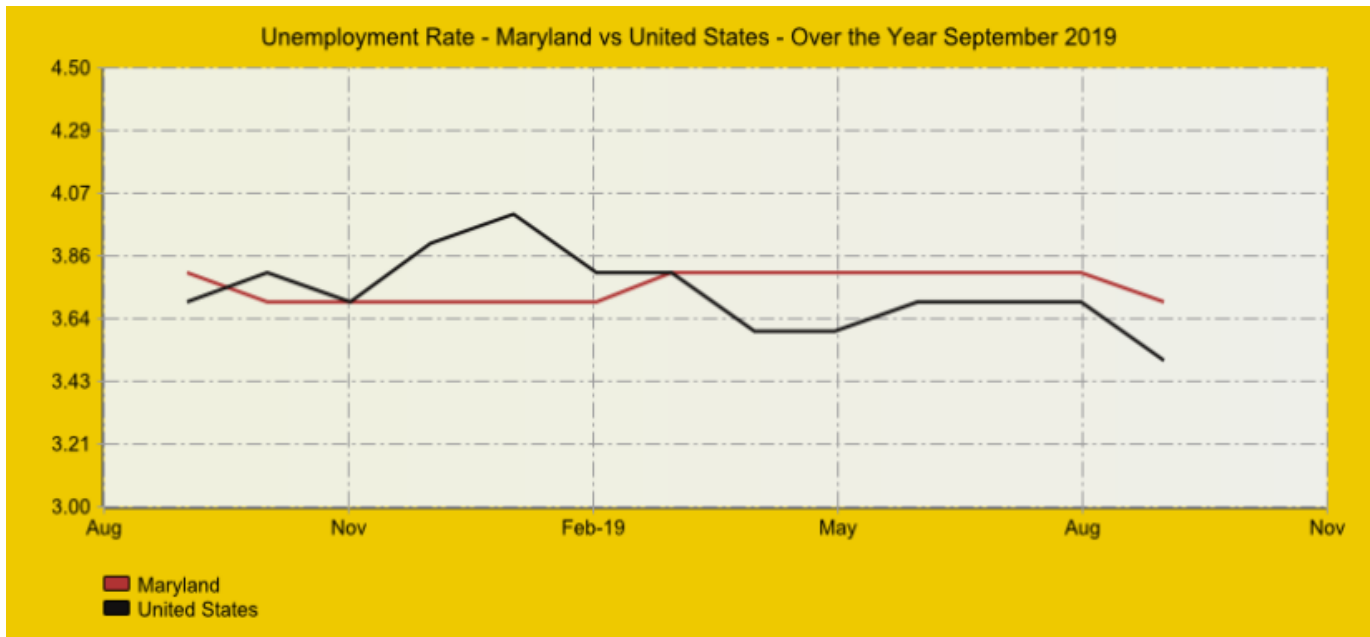

The Professional and Business Services Sector also increased by 1,800 jobs from the Professional, Scientific, and Technical Services (1,000), Administrative and Support and Waste Management and Remediation Services (700), and Management of Companies and Enterprises (100) subsectors. Other sectors that experienced growth include: Trade, Transportation, and Utilities (1,200); Mining, Logging, and Construction (900); and Manufacturing (300).

The Financial Activities sector decreased by 2,700 jobs from the Finance and Insurance (2,600) and Real Estate, Rental, and Leasing (100) subsectors.

August's preliminary jobs estimate was revised upwards by 8,500 jobs, from a gain of 500 to a gain of 9,000 jobs.

Business News

Paul's Place is Opening a Culinary Training Program, Restaurant

According to the Baltimore Business Journal, local nonprofit Paul's Place is launching a culinary arts training program that will yield jobs and provide a new dining option along Pigtown's Main Street. Groundwork Kitchen is designed to help Baltimore's youth and others looking for work get the training they need to find employment in the growing hospitality industry.

Maryland's Goodwill Chapter Expanding - and Evolving - a Century Later

According to The Baltimore Sun, Jessica Perez was still new to Maryland three years ago when her marriage collapsed, leaving her and her two-year-old daughter without financial support. She spotted a flier about a work-apprenticeship program at Goodwill Industries of the Chesapeake, the charitable institution celebrating its 100th anniversary in October.

Lockheed Martin Awarded Air Force ICBM Contract

According to Cision PR Newswire, the US Air Force has awarded Lockheed Martin (NYSE: LMT) a \$108 million contract for the Mark21A Reentry Vehicle (Mk21A) Technology Maturation and Risk Reduction (TMRR) contract.

The potential value of the contract is estimated at \$138 million: \$108 million awarded in the three-year contract and \$30 million as a potential one-year contract.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
